RE: One more question

Counsel:

I am sorry to ask you to do my work for me, but: is there any place in the patent claims where the phrase "video input connection" is not followed immediately by the phrase "from a camera?" Or where the phrase "video input data" is not followed by the phrase "from the video input connection?" Since you know the patent better than I, you can find the answer to this question faster than I can. Thanks.
